According to the Guinness Book of World Records, the Great Khan is the most successful military commander in history. In his youth, Genghis Khan was a slave, captured during a raid in Eastern Mongolia. He was taken to Mongolia, where he was bought and taken to the main palace where he was sold and he began the adventure of his life, without knowing how his deeds were to impact the world. Here he meets Temüge, a jockey, and then he meets his best friend and future general, Tolutai. Genghis Khan spends his time learning about horses and riding. Tolutai becomes jealous of his friendship with Temüge and tries to take away his horse. Later, Temüge takes him to the palace and tells him a secret about the Mongol horse. After that, he builds a horse for his new friend. The book ends with the introduction of Genghis Khan's two sons: Chagatai Khan and Jochi Khan. The English title was inspired by the name of one of Genghis Khan's early childhood playmates. 5 Things Businesses Can Do Today To Prepare For Future Needs As a new year dawns on its way, what changes will be required by the new business year? There are obvious changes, such as mergers and acquisitions, new business development initiatives, and technology adoption. But the one change that seems more common than not, is the aging of the workforce and turnover of employees. As an example, the Bureau of Labor Statistics (BLS) predicts that the U.S. population will increase by one million people in the next 10 years, and that will be coupled with an increase in the age of that population. And if current retirement plans are not changed by new legislation, retirees will continue to make up the largest proportion of the work force by 2020. So, what is the easiest, most straightforward thing businesses can do today to prepare for this? Adopt a retirement savings plan. While it may seem simplistic to view the years leading up to 2020 as a time to prepare for the new work force, the truth is that 82157476af
